

Building futures, one student at a time.

Welcome to the Website for East Central Technical College! This site is designed to keep you informed about upcoming events at our college and to make you aware of the many educational opportunities available here at ECTC. I encourage you to take the time to explore each link on this site, and I feel confident that you will find a program or service that meets your need.

East Central Technical College proudly offers 96 programs of study which include: 8 associate degrees, 28 diplomas, and over 60 short-term technical certificates of credit. The college also offers adult education courses for individuals who wish to obtain their GED diploma. Georgia Quick Start, contract training, and continuing education courses are also offered through the college's Economic Development Department.

Our courses are offered using a variety of instructional delivery models such as: on-line, traditional classroom, and hybrid formats. Our faculty members are extremely dedicated and are among the most qualified in higher education. Not only are they equipped with excellent educational credentials, but they are practitioners with years of real-world experience in the field in which they teach.

We hope to have you visit one of our campuses in the very near future to learn more about how East Central Technical College can meet your educational needs. Our motto is "Building futures, one student at a time," and we are pleased to carry out that mission in Atkinson, Ben Hill, Coffee, Irwin, and Wilcox counties.

We look forward to having you join the East Central Tech family.

Sincerely,

Lisa G. Tomberlin
Interim President
