Driver's Education Class to Begin February 8 at East Central Tech

Classroom instruction for the next Driver's Education training session has been scheduled for February 8, 9, 10, 11, 16, 17, 18, 22 & 23, 2010 from 4 p.m. to 7:30 p.m. The 6-hour behind the wheel driving will be scheduled individually after classroom instruction ends.

The program consists of thirty hours of classroom training and six hours of training behind the wheel. The program is designed to meet the training requirements of Joshua's Law as well as provide 6 of the 40 hours of supervised driving that teens must have before obtaining their driver's license.

The cost of the class is \$275 per person. Parents should be mindful of the \$150 state tax credit that is available and the significant impact completing the course can make on reducing insurance coverage costs. To register for this class, or for additional information, contact Gail Giddens at 229-468-2074 or send an email to ggiddens@eastcentraltech.edu. The registration deadline is Wednesday, February 3, 2010.
