ECTC PreK Program Taking Applications

The East Central Technical College PreKindergarten Program is taking applications for the 2009-10 school year. Children who will be four years of age on or before September 1, 2009, are eligible for enrollment. Parents must provide a certified birth certificate, Social Security card, and a current Immunization Form 3231 for each child prior to the beginning of the school year. Upon completion of the application process, children are enrolled on a first-come, first-served basis for the thirty-eight available openings.

The 180-day program will begin in August. Students receive breakfast, lunch, and a snack daily. Learning opportunities are available throughout the day guided by the teacher and teacher's assistant. Through developmentally appropriate activities based on *The Creative Curriculum*, children learn from their day to day interactions with their environment. The classroom materials support and enhance learning in the areas of literacy, mathematics, science, social studies, art, and technology. Trained staff supervises and guides individual opportunities for children to participate, learn, and grow through daily interactions in each of these areas.

Please visit the Child Development Center on the campus of East Central Technical College at 667 Perry House Road to complete an application for the upcoming school year. For more information, please call the Center at 468-2066.
