# **Eight ACHS Seniors receive GOLD LEVEL Georgia Work Ready Certifications**

The Senior class of Atkinson County High School recently took the Georgia Work Ready assessments, of which eight of those students scored at a GOLD level, which is the next to the highest level one can achieve. The Georgia Work Ready Program creates a framework of easy access for job seekers to obtain a Georgia Work Ready Certificate, which is a portable skills credential recognized and valued by employers across Georgia. The framework provides Georgia businesses with a valuable method of matching jobs with certified job seekers' skills.

Through the Georgia Work Ready program, skills that employers consider essential to job success are measured and documented by the Georgia Work Ready Certificate. Certified skill levels are then matched with existing or customized job profile requirements. East Central Technical College is administering these certification assessment tests and creating customized job profiles. The Work Ready assessments are available to all individuals age 18 and older, and there are proven results that those individuals who possess a Georgia Work Ready Certificate have an advantage when it comes to seeking employment with many companies across Georgia.

If you are interested in obtaining additional information regarding the Georgia Work Ready Program, or if you would like to register to take these assessments, please contact Lidell Greenway on the Coffee Campus of East Central Technical College at 229-468-2240. The assessments are FREE, so what are you waiting for? Call today to schedule your appointment.
