Satilla EMC Donates to East Central Tech

The Satilla Rural Electric Membership Corporation through its round-up program has made another wonderful gift to East Central Technical College Foundation.

This donation makes funds available for scholarships to worthy students. The Satilla REMC has been a very supportive partner with East Central Tech for many years. Pictured from L to right: E. J. Harris, Interim President of East Central Technical College, Romeo Reyes, EMC District Manager; and Mona Paulk, Director of Institutional Advancement. According to Mr. Harris, "Satilla EMC has always been very supportive partner for East Central Tech and these funds will continue to provide opportunities for students who need financial assistance."
